Dear «Parent»,

Re: Sam Learning Booster Session for «Name» «F7»

«Name» has been selected to take part in the WGA Sam Learning Booster programme. Sam Learning is an online learning platform used by teachers and students across Wood Green Academy. In order to ensure that «Name» maximises her academic progress she has been selected to complete activities related to her curriculum target areas. All work and tasks completed within the Sam Learning platform are designed to be interactive and support in the revision and retention of key ideas and concepts. In addition to this, all the tasks set within this booster programme are monitored by a member of staff so that classroom conversations can take place that will encourage and support «Name» in areas that she finds challenging.

I understand that we are asking students to complete tasks in addition to their usual homework. However, there is compelling evidence that students who complete approximately ten hours of appropriately challenging tasks across the whole academic year, make excellent progress in their target subjects and topics. Sam Learning have further information about this on their website:

<https://www.samlearning.com/>

If you have any concerns or queries, please contact school so that I can arrange for a further telephone conversation or meeting.

We look forward to your continued support of «Name»'s education.

Yours sincerely,

N Murray

Head of eLearning
