# Vision Statement

Wood Green will continue to be one of the more popular schools in Sandwell. We will ensure that all aspects of Every Child Matters are effectively addressed for all learners

We will continue to build upon its reputation for providing a 'high challenge, low threat' learning environment for its students and a wide cross-section of the local community. We will continue to achieve excellent results with a desire to achieve a grade 5 or more in English and Maths for 80% of our students, with the Academies progress 8 score of at least +1.0 and attainment 8 score of at least 60.0. All KS5 students will pass their qualifications and 70%+ will achieve higher grades (A\*-B)

The school's external examination results will be in the top 5% for schools of a similar nature.

Teachers enjoy teaching at the school and students enjoy learning and are justifiably proud of the school as a place where everybody can and does achieve.

The school will continue to be characterised by its calm learning environment, its wide range of learning opportunities and its tireless celebration of success in all facets of learning.

## Aims and Objectives

**The school motto is: *Seek Wisdom***

We aim to provide an orderly, caring, learning community where we all:

- Expect to achieve success
- Have pride and respect in ourselves and our school
- Accept our responsibilities as well as being aware of our rights
- Make a positive contribution to the community

As a specialist school, (Sport/Maths and Computing and Leading Edge), we will achieve these aims by:

- Promoting an ethos of learning through sport and innovation
- Use our specialism's to help remove barriers to learning
- Providing quality teaching through relevance and realism, building confidence to accept challenges
- Having high expectations of work ethic, initiative, flexibility and problem solving Building a bridge between active citizenship and employability skills through enterprise activities
- Preparing young people with the skills, attitudes and aptitudes for active participation in society and preparation for work
- Praising, encouraging and celebrating success
- Providing a broad and balanced curriculum with high quality vocational and work related courses which will prepare young people for work-based learning, further or higher education
- Providing a stimulating learning environment which actively partners local learning organisations, local businesses and the community
- Ensuring excellent behaviour through respect for others and high self-esteem
- Working with parents and the wider community
- Offering high quality student welfare and support
- Preparing young people to seek the opportunities for lifelong learning
- Good communication systems with all our stakeholders
- Continually monitoring and evaluating everything that we do.

**We will be consistent, persistent and insistent in everything we do**
