

Key Stage 3 Assessment

Pupils will be assessed at the start of Year 7 in a baseline unit which will determine their PE set.

Pupils will then be assessed throughout the unit by their teachers and will be ranked on two assessment elements which will have been the focus for that unit.

Pupils will be given an overall grade for the year based on their four 'top' elements. This makes our assessment system play to individual pupil's strengths rather than their weaknesses. The elements to be assessed are shown on the curriculum plan.

The table below shows the grades that can be rewarded to pupils in each element. The table over leaf shows what pupils should be able to do to be awarded each.

Level	Assessment	Security	By the end of KS3
